TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Deerfield in the County of Rockingham in said State, qualified to vote in Town Affairs:

[L. S.]

You are hereby notified to meet at Town Hall in said Town of Deerfield on Tuesday, the twelfth day of March, next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.
3. To see if the Town will raise and appropriate the sum of \$803.95 for Class V Highways, the State to contribute \$3,215.79.
4. To see if the Town will vote to instruct the Selectmen to hire money in anticipation of taxes.
5. To see if the Town will vote to make any change regarding wages paid for labor on highways.
6. To see if the Town will vote to authorize the Selectmen to administer or dispose of any real estate acquired through tax collectors' deeds, this authority to continue until revoked or rescinded by some future town meeting.
7. To see if the Town will raise and appropriate a sum of money for the purchase of snowfence.

8. To see if the Town will raise and appropriate a sum of money to purchase a forest fire pump.

9. To see if the Town will vote to accept the George B. White Estate and the proceeds to go towards the new central school.

10. To transact any other business that may be legally brought before this meeting.

Given under our hands and seal, this First day of February in the year of our Lord nineteen hundred and forty-six.

REPORT OF THE FOREST FIRE WARDEN

PREVENT FOREST FIRES — IT PAYS

An average of 7,300 acres of woodland are burned over by forest fires in New Hampshire each year destroying many thousand dollars' worth of property of all description. It costs many additional thousands of dollars and requires valuable man hours, taken from other essential work, to extinguish them. These losses affect the personal fortunes of the owners and town and state economies. Everyone loses because of them.

Analysis of fire causes reveal the fact that more than 98 percent of all forest fires are, consistently, the result of human carelessness and are preventable!

We have been extremely fortunate during the past few years. Favorable fire weather and war time restrictions on travel which kept people off the highways and out of the woods have aided materially in reducing fire risks, keeping fires fewer and fire losses low.

We now face changed conditions. People can travel freely. Their love for travel and the freedom of the woods will bring them out in ever increasing numbers. This will step up fire risks materially. The accelerated cutting of the war years has resulted in additional thousands of slash acres. These factors, combined with a possible dry season and human carelessness could easily produce a catastrophe. Everyone must, consequently, be on their guard. They should

1. Be careful with fire or when smoking in or near woodlands.
2. Cooperate with the local forest fire warden and his deputies by

- a. Abiding cheerfully with whatever restrictions it be necessary to impose. They are intended only to be helpful.
- b. Securing permits to burn debris when the ground is not covered with snow.
- c. Seeing that others comply with requirements.
- d. Promptly coming to the warden's assistance when needed.

If these few fundamental practices are followed it will be possible to PREVENT a large proportion of FOREST FIRES from starting — that PAYS!

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Deerfield:

This my seventeenth annual report finds some of your schools handicapped by the lack of teachers and your budget committee faced with the increasing cost of education. Both elementary and high school expenditures present a serious burden to towns with a small but scattered school population and a proportionately smaller property valuation.

The lack of even an "emergency" teacher has necessitated at the Center School a return to the long winter vacation of fifty years ago. More than twenty school days have been lost. This is a handicap to all grades, especially to those pupils who should be graduating this year.

A comparison of the results of standardized achievement tests of the last two years is significant of the improvement that can be expected where teachers of training and experience are retained in service as in your primary grades. Frequent changes, no matter how efficient the several teachers may be, destroy the attainment of standard achievement. Following are the total averages for the last two years:

Grades	III	IV	V
<i>Standard score anticipated:</i>	3-3	4-3	5-3
Deerfield's Averages in 1944:	3-4	4-1	5-6
Deerfield's Averages in 1945:	3-9	4-4	5-1

Since June the Center School has been without a regular teacher. Beginning in September there have been four substitutes. Mr. Clarence P. Amadon, U.S.N.R. of Quonsett,

R. I., has been elected and is expected to come to the Center this month. Mr. Amadon is a graduate of Plymouth Teachers' College, and previous to enlistment in the U. S. Navy, was principal of the new four-room school in Hooksett Village.

Mrs. Bessie S. Blake of Candia was recently elected teacher in the South Road School, succeeding Mrs. Helena F. Short who resigned shortly before Christmas.

At the Parade School Mrs. Eliza L. Brown has continued without interruption her instructions of the primary grades.

Mrs. Mabel E. Reed of Manchester has been retained to teach Music in the several schools of Deerfield and neighboring towns.

Following is the report of the annual enumeration completed in September 1945:

Number of boys (5-16 years)	43	
Number of girls (5-16 years)	53	
		<hr/>
Total (5-16 years)		96
Of this number the following are not in school:		
Below required attendance age (5-8) ...	5	
Physical disability (8-14)	0	
Completed elementary school (14-16) ...	1	
		<hr/>
Total (5-16 yrs.) not in school		6
		<hr/>
No. (5-16) in local schools	75	
No. (5-16) attending high schools	13	
No. (5-16) attending elementary schools outside	2	
		<hr/>
Total (5-16) accounted for in schools		90

The health inspection of all school children for the year 1944-1945 was made by your school nurse, Miss Margaret E. Cronin, R. N. Her report shows:

The salary paid to women teachers in some of the one-room schools in New Hampshire now amounts to \$1600. Men teachers in small elementary schools are receiving salaries as high as \$2000.

The "Teacher Retirement Law" of 1945, Sec. 6; Chapter 136, provides that the school district share with the individual teacher in contributing annually to the state a specified per cent of his salary to be applied to the individual's retirement fund.

The increasing scarcity of competent teachers and the mounting costs of schools are items of most serious consideration in all towns, particularly where the consolidation of schools has not been effected.

Although the sources and supply of building materials and the costs of labor prohibit at present the economical construction of new school buildings, the growing interest among the people of Deerfield to procure a suitable location for a centralized school may eventually reduce the local tax burden by several thousands of dollars. It has been the policy of federal agencies to grant first aid for public improvement to those local government units that have taken the initiative by helping themselves. The interest in a new school in Deerfield is well timed and indicative of genuine New England enterprise.

President Truman in his message to Congress, last month, emphasized the urgent need for federal aid, in addition to present local appropriations, to insure the maintenance of adequate educational facilities, including school building, in the various states. Legislation for this purpose is now pending in Washington.

The President wisely advocates the allotment of such aid without federal interference with local school control.

The element of local initiative has been fundamental in our social and industrial development, particularly in New

England. The essence of local initiative has its source in a well informed and actively participating citizenship. The training of our youth with this end in view is of increasing significance to the welfare of the individual and community.

Respectfully submitted,

GEORGE H. HARMON,
Superintendent of Schools.
